

Kasey Miracle

VOICE ACTOR

ABOUT ME

I have been involved in performing arts since I was a child. I've acted in plays and musicals, written scripts, worked behind the scenes to help create backdrops, and more.

When I became a mother to a special needs child, I changed my career to voice acting so I could be home with him while also contributing to a community that could help others like him who have a difficult time reading.

I am passionate about my work. I love what I do and I give my very best to every single project!
